26th November 1992

Press Release:

InfoText Manuscripts announces the publication on 21st December of *A Goy Pries Into The Talmud*, an analysis and refutation of religious anti-Semitic propaganda. For the first time in modern history, a *goy* has examined the *Talmud* in collaboration with a Rabbi, and the two have refuted quote by quote the canards of *Talmud*-baiters which have been going the rounds for centuries and which, in the current political and economic climate, are being used by organised anti-Semites in their increasingly subtle campaigns.

This 57 page large format pamphlet, which retails for 3.99, also contains an examination of anti-Semitic propaganda and an eloquent defence of the Torah.

The authors plan a similar publication - on shechita - next year.
